

Deep in the of Texas

Lecture Hall

Presentations

Saturday - February 23, 2008

- 9:30 am **How To Attract Wild Birds To Your Yard**
Mr. Bob Lindsay will cover the basics of bringing wild birds into your landscape. You can learn everything from what plants attract birds to what types of birds are in our area. You don't want to miss this one. Birds bring life to your yard!
- Bob Lindsay
Executive Director - Wild Bird Rescue
- 11:00 noon **History and Care of Clark Gardens**
Come and learn about how Clark Gardens in Mineral Wells were established. Mrs. Reed with Clark Gardens will also discuss the everyday maintenance that is required to maintain such a large, beautiful garden.
- Dick and Juane Reed
Clark Gardens - Mineral Wells
- 12:30 pm **\$mart Choices = Energy \$avings**
Ways you can help your home...your wallet...and Mother Earth!!!
- Rick Belz will discuss the newest and most effective ideas being brought to the market today by such well-known names as Alcoa Atrium, and CertainTeed, covering a wide spectrum of smart ideas every home and business owner can use to make their home and offices more energy efficient.
- Rick Belz
Builders Wholesale - Wichita Falls
- 2:00 pm **Wildflowers!**
Everyone loves to see wildflowers growing along the roadside. Why not figure out how to grow them in your own backyard. There is a large selection of wildflowers to choose from that do well in our area and who does not love low maintenance beauty!
- Susan Flanagan
Dallas County Master Gardeners

Sunday - February 24, 2008

- 1:30 pm **Bonsai**
Listen as Curtis Smith discusses his new passion - bonsai! Come and learn the basics of bonsai including plant selection and pruning techniques. Also included is how to select the proper container and how to create the perfect scene with your new bonsai plants.
- Curtis Smith
Smith's Gardentown Farms
- 3:00 pm **Recycling with Kids**
Recycling is great for everyone. Why not get your children involved and teach them the importance of recycling. It is fun, easy, and a great thing for our environment. Let the kids come and learn how to begin recycling today!
