

Memories in the Making®

The Alzheimer's Association – North Central Texas Chapter is pleased to offer to area residents and their caregivers Memories in the Making®, an art program for people with dementia.

The program, based on the simple premise that creativity is essential to the health of the human spirit, was developed over 20 years ago as a means of helping individuals with memory loss express themselves through artistic means. Everyone, regardless of their prior interest in art or the severity of their memory loss, is welcome to participate **free of charge**.

Untitled Landscape - Evelyn

Well known Wichita Falls artist Ronda Ivy will facilitate Memories in the Making® from 11 am to noon, every Thursday beginning July 15 and continuing through September 2, in the lower level classroom at the Kemp Center for the Arts. Whether or not the program continues past September depends on the level of community interest, so don't delay.

Butterflies - Mary

A Little Bit About ... Ronda K. Ivy, BFA

A talented artist in her own right, Ronda has more than 30 years of teaching experience, working with students from elementary school through adults. Recognizing the uniqueness of art as an academic subject matter, a therapeutic tool and a life long learning experience, Ronda has organized her own art education program, *Artistically Enriched*, which she teaches through several venues in the greater Wichita Falls area, including her own private art studio, *Studio Ivy*. Ronda has taught several art programs for adults and youth at the Kemp Center for the Arts, and is thrilled to be involved in bringing the Memories in the Making® program to community residents.
